BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAYWARD. TUESDAY, APRIL 4, 1854. VOLUME XX.....NUMBER 236.

Bangor Daily Whig and Courier
—IS PUBLISHED—

Over the Kenduskeag Market, at **Five Dollars** a year, payable half yearly in advance. All subscriptions for less than a year to be paid in advance, and all orders for discontinuance must be accompanied by the amount due.

The **BANGOR COURIER** is published at the office of the Daily Whig and Courier, every *Tuesday* morning, at **One Dollar Fifty Cents** a year in advance, or *Two Dollars* a year if not paid in advance.

☞ The publishers will not hold themselves responsible for any error that may occur, beyond the amount charged for the advertisement.

☞ Mr. V. B. PALMER is agent for these papers. Advertisements left with him will be immediately forwarded.

☞ This paper is filed, and may be seen free of charge, at *Holloway's Pill and Ointment Establishment, 244 Strand, London*, where Advertisements and subscriptions will be received for this Periodical.

A CURE FOR ALL!

HOLLOWAY'S OINTMENT!!!

Friends of the Union:—

You have done me the honor, as with one voice, from one end of the Union to the other, to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short a period. THOMAS HOLLOWAY,
38 Corner of Ann and Nassau Sts, New York.

ASTONISHING CURE OF SORE LEGS AFTER NINE YEARS' STANDING.

Copy of a Letter from Mr. W. J. Langley, of Huntsville, Yadkin county, North Carolina, U. S., dated November 1st, 1852.

☞ READ HIS OWN WORDS. ☜

To Professor Holloway

Sir—It is not my wish to become notorious, neither is this letter written for the emoluments of writing, but to say, that your Ointment cured me of one of the most dreadful diseases that flesh is heir to, and which was considered by all who knew me to be entirely beyond the reach of medicine. For nine years I was afflicted with one of the most painful and troublesome sore legs that ever fell to the lot of man, and after trying every medicine that I heard of, I resigned myself in despair, all hope of being cured. But a friend brought me a couple of large pots of your Ointment, which caused my sores to heal, and I entirely regained my health, to my inexpressible surprise and delight, and to the astonishment of my friends.
(Signed) W. J. LANGLEY.

AN EXTRAORDINARY CURE OF A BAD BREAST WHEN NEARLY AT THE POINT OF DEATH.

Copy of a Letter from Mr. R. Durant, New Orleans, November 4th, 1853.

To Professor Holloway, 38, Corner of Ann and Nassau Streets, N. Y.

Dear Sir—It is with heartfelt gratitude I have to inform you that by the use of your Ointment and Pills, the life of my wife has been saved. For seven years she had a bad breast, with ten running wounds, (out of a cancerous nature.) I was told that nothing could save her. She was then induced to use your Ointment and Pills, and in the short space of two months, they effected a perfect cure, to the astonishment of all who knew her. We obtained your medicines from Messrs. Wright & Co., of Chartres street, New Orleans. I send these particulars [illegible] Princess" [illegible] all [illegible] I had [illegible] at New Orleans, before we finally left, at that time, not knowing your address at New York.
(Signed) R. DURANT.

The Pills should be used conjointly with the Ointment in most of the following cases,

Bad Legs,
Bad Breasts,
Burns,
Bunions,
Chilblains,
Chapped hands,
Contracted and Stiff Joints,
Fistulas,
Gout,
Glandular Swellings,
Lumbago,
Piles,
Rheumatism,
Salt Rheum,
Scalds,
Sore Nipples,
Sore-throats,
Skin diseases,
Scurvy,
Sore-heads,
Ulcers,
Wounds

Sold at the Establishment of Professor Holloway, 38 corner of Ann and Nassau Streets, New York, also by all respectable Druggists and Dealers in Medicines throughout the United States, in Pots, at 37½ cents, 87 cents and $1,50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of Patients in every disorder are affixed to each Pot.

INGRAHAM & FULLER, Agents for Bangor.

McFarland's BURGLAR and FIRE PROOF SAFES!

THE undersigned would respectfully call the attention of the public to the above unequalled safe, warranted proof against the all consuming element fire, as well as the most skillful burglar. To MERCHANTS, JEWELLERS, and BANK DIRECTORS, we would only say, examine them and the proofs, and you will be convinced of their superiority over all other manufacture.

Our business is done in a plain, straightforward way, without resorting to humbug or large talk.

Among some of the many testimonials we are constantly receiving from all parts of the country, and which speaks for itself. Messrs. Ford & Hitchcock's Oil Store was situated directly under the Pearl-st House, and was totally consumed in that great fire of August 23d.

New York, Aug. 23, 1853.

Messrs. Wm. McFarland & Co.,

Gents:—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you, preserved our books and papers at the disastrous fire of the Pearl-st House, last evening, in the most perfect manner. Although it was covered throughout the fire with burning Rosin, and other Oils, and directly under a broken gas pipe, in the most intense heat, it remained true to its name, and its contents when taken out were not even scorched, and hardly bore the smell of fire. To any one who is in want of a superior Safe, a perfect safeguard against fire, we cheerfully recommend one of your manufacture, having had a personal experience of their excellence. Yours truly,
B. F. FORD & HITCHCOCK.

Our Depot, where an assortment of all kinds and sizes is constantly on hand, is at

33 Maiden Lane,
TWO DOORS FROM NASSAU STREET.

CITY OF BANGOR.

AN ORDINANCE *for the reorganization of the Fire Department.*

Sec. 1. Be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor, in City Council assembled, That the Fire Department shall consist of a Chief Engineer, and of not less than three Assistant Engineers; and of three companies, each of which is to consist of forty men, and of such additional companies, as shall hereafter be established by the Mayor and Aldermen.

Sec. 2. Be it further ordained, That the Mayor and Aldermen shall from time to time form such additional Engine Companies as the wants of the City may require, but no Company shall exceed forty men in number.

Sec. 3. Be it further ordained, That no person under the age of twenty one years, shall be admitted into any company belonging to the Fire Department.

Sec. 4. Be it further ordained, That the Chief Engineer shall be chosen annually by ballot in the month of March by the City Council in convention, and at such other times as vacancies may occur.

Sec. 5. Be it further ordained, That the Chief Engineer shall have the power to appoint as many Assistant Engineers, and designate their rank, subject to the approval of the Mayor and Aldermen, as there are Engine Companies.

Sec. 6. Be it further ordained, That the Engineers shall have and exercise all the powers, and be subject to all the duties of Fire Wards.

Sec. 7. Be it further ordained, That the Chief Engineer shall appoint the Firemen, and shall have the power to discharge the same. But if any Fireman is aggrieved by his decision, he may appeal to the Board of Assistant Engineers who shall have power to reinstate him.

Sec. 8. Be it further ordained, That each Engine Company shall choose a Foreman, two Assistant Foremen and a Clerk, all of whom shall be confirmed by the Chief Engineer. Each Company shall also cause a roll of its members to be made and kept, and called after each fire, false alarm, and at each meeting of the Company, and note on said roll all who are absent.

Sec. 9. Be it further ordained, That each member of any company, who shall be absent from any Fire, False Alarm, or Meeting of said Company, unless for a satisfactory reason given to said Company, shall be fined as follows:—Absence from Fire, one dollar; absence from False Alarm when the roll is called, twenty-five cents; and absence from each meeting of the Company, twenty-five cents. The Clerk of each Company shall report quarterly to the Chief Engineer all the absences of each member belonging to his company and what amount is due from each member, for fines.

Sec. 10. Be it further ordained, That the Chief Engineer shall be paid, annually, the sum of three hundred dollars; each Assistant Engineer, the sum of fifty dollars; each Fireman the sum of twenty-five dollars, on the first Monday of January of each year. But any Fireman who shall serve for a less time than one year, shall be entitled to such compensation as the Chief Engineer shall determine. The amount due from each member for fines, shall be deducted from the amount due for his services. And the money thus deducted shall be kept by the City Treasurer in a separate fund to be called "Firemen's Relief Fund," to be used for the relief of those members who may be injured at fires, and when needed, for that purpose, may be drawn from the Treasury by the Mayor, and appropriated as the Chief Engineer shall direct.

Sec. 11. Be it further ordained, That on the first Monday of May annually, at two o'clock in the afternoon, the Chief Engineer may order out all the Companies of the department with their respective Engines and other apparatus, to exercise the members; and no company shall appear with more than sixty members.

Sec. 12. Be it further ordained, That it shall be the duty of the Engineers whenever any fire shall break out in the city, to repair forthwith to or near the place where the fire may be; to cause the Engines and other apparatus to be arranged and worked in such manner as most effectually to extinguish the fire; to require the assistance of any persons in extinguishing the fire, removing furniture, goods or merchandise, from any building on fire, or in danger thereof, and to appoint guards to secure the same; and in pulling down or demolishing any house or building, or suppressing tumults and disorder. And it shall be their duty to cause order to be preserved throughout the department in going to, working at, and returning from fires, and at all times when companies attached to the department are on duty. And whenever any fire shall occur in either of the adjoining towns, it shall be the duty of so many of said Engineers or companies to go to such towns as shall have been designated for that purpose by said Board of Engineers.

Sec. 13. Be it further ordained, That in case of the absence of the Chief Engineer at any fire, the Engineer next in rank who may be present, shall possess his powers and perform his duties.

Sec. 14. Be it further ordained, That all persons who may be present at any fire shall obey the direction of any Engineer, and render their services in extinguishing the fire and protecting property exposed thereto, in such manner as they may be required to do by any Engineer, and every person who shall refuse or neglect so to do on request of said Engineer shall forfeit and pay to the city, the sum of Ten Dollars to be recovered in an action of debt in the name of the City Treasurer to the use of said City. And it shall be the duty of the Engineers to report to the Mayor and Aldermen, all such cases of refusal.

Sec. 15. Be it further ordained, That the Chief Engineer shall have the sole and entire control and command over all engineers and other persons attached to the Fire Department, shall direct all proper measures for the extinguishment of fires and protection of property, preservation of order, and observance of the fire laws, ordinances and regulations. It shall be his duty to examine the condition of the Engines, and other Fire apparatus, Engine Houses, and other buildings used by the Fire Department, and all the reservoirs, weekly, to keep the reservoirs free from snow and ice during the winter, to superintend the building and repairing of all machines and buildings used in the Fire Department, and all the city reservoirs. It shall be his duty to see that the Engines and apparatus are always kept clean and in order for immediate use; that, on the return from fires, they are tried, washed, cleaned, and oiled and securely housed. He shall keep fair and exact rolls of the respective Engine Companies, specifying the time of admission and discharge of each member; and report the same to the Mayor and Aldermen on the first Monday of January of each year, with the amount of fines due from each member. He shall report to the City Clerk once in each year all the accidents by fire which may have happened within the city, and the causes thereof so far as it can be ascertained, and the number of buildings and the value of the property destroyed or injured, and the names of the owners, if known.

Sec. 16. Be it further ordained,—That the City Council, by a concurrent vote, may remove either of said Engineers.

Sec. 17. Be it further ordained—That the Mayor and Aldermen may, from time to time, form as many Hose, Hook and Ladder, Bucket and Fire Companies as they deem it expedient, to consist of such number of members as they shall determine.

Sec. 18. Be it further ordained—that the Engineers and members of the several Companies shall wear such caps and badges as the Chief Engineer shall direct, and the Mayor and Aldermen furnish. They shall be furnished at the expense of the city, and remain the property of the city. No other person shall be permitted to wear similar caps and badges except under such restrictions and regulations as the Chief Engineer may direct.

Sec. 19. Be it further ordained, That it shall be the duty of the City Marshal and Constables of the city, on an alarm of fire to repair forthwith to the place where the fire may be, with their staves or such other badge of office as the Mayor and Aldermen shall direct, and use their best exertions, under the direction of the commanding Engineer, to preserve the public peace, and to prevent theft and the destruction of property, and assist in the removal of all suspected persons, for which service the Constables shall receive such compensation as the Mayor and Aldermen may allow.

Sec. 20. Be it further ordained, That if any chimney, stove pipe or flue, within the city shall take, or be set on fire, the occupant of the house, to which such chimney, stove-pipe or flue appertains, or the person so setting the same on fire, shall forfeit and pay the sum of two dollars. Provided, however, it may be lawful for any person to set fire to his chimney, stove-pipe or flue, in the forenoon of any day, when the contiguous buildings are wet with rain, or covered with snow. And it shall be the duty of the Engineers to report to the Mayor and Aldermen the names of all persons liable to the penalty provided by this section.

Sec. 21. Be it further ordained, That the power of making and establishing rules and regulations for the transportation and safe keeping of gunpowder, within the city of Bangor and granting licenses for the keeping and sale thereof, in the city, pursuant to the provisions of law, shall be exercised and performed by the Chief and other Engineers; and the power and duty of seizing any gunpowder kept or being within said city, or the harbor thereof, contrary to the provisions of law, shall be exercised and performed by said Engineers, or any one of them. And in case the seizure shall be made by any Engineer, other than the Chief, he shall forthwith report the same to the Chief Engineer, who shall cause said gunpowder to be libelled and prosecuted in the manner prescribed by law. And all the other powers and duties conferred and granted by the laws of the State, in relation to the safe keeping and transportation of gunpowder, shall be exercised and performed by the said Chief and other Engineers.

Sec. 22. Be it further ordained, That whenever it shall be determined by two or more Engineers, or by the majority of any greater number of Engineers present, at any fire, to pull down or demolish any building which may be on fire, or which it may be necessary to remove to prevent the spread of the fire, the same may be done by their joint order.

Sec. 23. Be it further ordained—That it shall be the duty of the Chief and other Engineers to inquire and examine into all shops and other places, where shavings or other combustible materials may be collected and deposited, and at all times to be vigilant in causing the removal of the same, whenever, in the opinion of any two of them, the same may endanger the city; and to direct the owner or occupant of such shop or other place, to remove the same, or cause the same to be removed, at his expense, under the direction of the Engineers.

Sec. 24. Be it further ordained, That when any chimney, stove, or stove-pipe within said city shall be defective or out of repair, or so constructed or placed that any building or other property shall be in danger of fire therefrom, it shall be the duty of the Chief Engineer, or any two Engineers of the Fire Department, to give notice in writing, to the owner or possessor of such chimney, stove, or stove-pipe, to remove or repair the same. And if such owner or possessor shall for the space of forty-eight hours after such notice, unnecessarily neglect to remove or effectually repair such chimney, stove or stove-pipe, he shall forfeit a sum not less than two dollars nor more than twenty dollars; and he shall be liable to a similar forfeiture every week he shall so unnecessarily neglect to remove or effectually repair the same, after the termination of the said forty-eight hours.

Sec. 25. Be it further ordained,—That if said owner or possessor shall unnecessarily neglect to remove or effectually repair such chimney, stove, or stove-pipe, within forty-eight hours after notice as aforesaid, it shall be lawful for the Chief Engineer to remove or repair the said chimney, stove, or stove-pipe, the expenses of which may be recovered by an action of the case by the City Treasurer against the said owner or possessor.

Sec. 26. Be it further ordained,—That all moneys received for fines, forfeitures and penalties arising under this ordinance and the laws of the State regulating the storage and transportation of gunpowder, shall be paid to the City Treasurer, to be applied in such way as is or may be provided by law.

Sec. 27. Be it further ordained,—That whenever the members of the several companies shall assemble at the houses entrusted to their care, either on duty or company business, order and regularity shall be preserved. And it shall be the duty of the officers and members to refrain from unnecessarily assembling at said houses. And the utmost care and economy shall be observed in the use of fuel, lights and other property furnished by the city.

Sec. 28. Be it further ordained,—That any member of the City Council may enter within the lines, at any fire, wearing a suitable badge to be provided by the Mayor and Aldermen.

Sec. 29. Be it further ordained, That no Fire Engine, or apparatus belonging to the city, shall be used in any trial or contest for superiority with any other Engine, or be taken out of the city, except to render assistance at fires in neighboring towns, unless by special order of the City Council.

Sec. 30. Be it further ordained, That "an ordinance establishing a Fire Department for preventing and extinguishing Fires," passed Oct. 16 1838, and "An ordinance additional" to the same passed Feb. 3, 1851 be and the same are hereby repealed.

[Passed Feb. 20, 1854.]

A true copy—Attest:
fe22 1w GEO. W. SNOW, City Clerk.

SEYMOUR'S GALVANIC ABDOMINAL SUPPORTER.

THIS apparatus possesses all the mechanical advantages of the Abdominal Supporters now in use, and also some valuable improvements besides the galvanic attachment. It has been tested, approved of, and universally adopted in the practice of all the leading Physicians in New York, Boston, and all other places, where introduced, in the treatment of all Nervous diseases which exhibit themselves under so many different heads, and particularly in the cure of Uterine difficulties. The beneficial results which have uniformly attended the use of this instrument are a sufficient guaranty of its utility and general application. The advantages of this over other Supporters are, it cures by its Galvanic action, presents a smooth surface that does not retain heat or impurities which pass from the system, and can be kept pure and healthful.

The attention of the medical profession is respectfully solicited to an examination and test of the instrument. The above Supporters are for sale by GEO. W. EMERSON, Druggist, No. 4 Smith's Block, sole agent for Bangor and vicinity.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

This article, which has made so many wonderful cures, was discovered by Dr. Isaac Hampton, of Louisville, Ky., now in fine health in the 70th year of his age, and is acknowledged by those who have used it to be the best family medicine in use, and is warranted free from all mineral substances. By its mild action on the Stomach, Liver and Kidneys, it will cure the diseases of those organs, with all Chronic Complaints, as

Dyspepsia, Cough, Asthma, Bronchial and Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Bowel Complaint, Worms, and Nervous Debility,

with all diseases arising from Impure Blood. As a Female Medicine it has no equal. It will change the complexion from a pallid to a blooming one.

House-keepers, look at this!

Admirable Invention.

PATENT SELF HEATING
SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements, but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch; one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle and possess equal superiority.

For sale, wholesale and retail, by the subscriber, who is the only Agent for Penobscot County.

John S. Sayward, Editor.

TUESDAY, APRIL 4, 1854.

Farming in Maine.

Uncommon inducements are now held out in the State of Maine for young men to engage in farming. The price of good farming land is merely nominal and to those acquainted with the business and possessed of enterprise any amount of capital for a safe and profitable pursuit of the great art may be easily commanded, and good markets are at the very door.

Nothing but the political advantages of the profession of the law, (an advantage which should not exist, since the monopolizing power of this profession does injustice to many other pursuits and takes something from the public welfare) prevents many then from engaging successfully in farming, who now almost starve in living in expectancy of political office as a means of support. But this evil will correct itself more and more as it becomes apparent that the profession of farming has its advantages in influence as well as in material gains.

High farming, that is to say, tasking the soil to do its best in yielding large crops without regard to the space cultivated, applying all the forces upon only such number of acres as will yield a bountiful and profitable return, will infuse new vigor into general farming, will make farmers thinking, calculating men, will call for more and knowledge and will bring the subject within the range of the educational system of the State. These influences will serve to make farming more profitable as well as more desirable, or, we may say more fashionable and respectable. Those young men who now engage in farming can do so at a great advantage over those who commenced twenty years since, both as to the price of land and the value of the crops. The good sugar days of farming must give place to greater investigation, a closer application of science, an increased activity and more remunerative reward. He must be an unobservant man who does not see that the appropriate and skillful cultivation of the soil now promises a greater reward than at any former period in the history of the State. The subject is better understood—many means of improving the soil have been demonstrated and better implements have been invented; the public attention is more intently fixed upon the subject, and those engaged in it are more highly esteemed, and in every way there are manifold advantages now over those of a few years since.

These facts are full of encouragement to young men of education, industry, and enterprise to engage zealously in the pursuit of farming, whether they do so in hope of independence, health and social comfort, or prospective political advantage. The farmers and business men of Maine, the directors of the industry of Maine are the masters of the State, and this fact they are beginning to understand and to take the position which of right belongs to them.

Let any young man go into the county of Aroostook, a new county, and he will there find that every man who has been for a few years engaged in farming has acquired a fortune or has laid the foundation of one. He will there find the best farm in the State—the most thrifty and profitable, with commodious and elegant buildings, with its vigorous orchards of young trees, its [illegible] and fertile fields, with about five hundred head of cattle, horses, sheep and swine. He will there find many farms to attract his attention and excite his admiration, and on which are the best specimens of modern high farming, appropriate drainage and the use of special compost for manures. At this rate the farmers in Aroostook are going on it will by and by become the garden of the State, and the farmers there as men of wealth, intelligence and influence political as well as social.

We cannot now propose to write at length upon this subject, but merely to call attention to a few signs of the times, hopeful in themselves, and sure in their promise of success to those young men who engage zealously in farming in the State of Maine.

☞ The municipal election in Portland takes place to-day. The candidates for Mayor of those in favor of a more vigorous execution of the Maine Law is Neal Dow, Esq., while the candidate of those who are satisfied with matters as they are and those opposed to a more vigorous execution of the law is Mr. Cahoon, the present Mayor. The rum interest in that city do not dare to put forth a candidate upon the issue of opposition to the Maine law, but content themselves with a modified issue in which they may escape the odium of a defeat and stand some chance of raising the dust of a victory in the defeat of Mr. Dow. The election will be strongly contested and we cannot but feel a deep interest in the result. A Dow fight, as it is called in Portland, is quite a different thing there from a rum or no rum fight, and still we hope that Mr Dow will be elected,—a proof of the superior strength of the friends of the Maine Law and of its most vigorous execution in that city. It seems quite clear to us that the full and complete enforcement of the law is what is demanded for the welfare and honor of the State—of all its cities and towns, of its industrial and business interests, of all its social and educational affairs. If Maine shrinks at all—if it falters in its onward march of prosperity it will be in consequence of the triumphs of rum over all that is valuable in man, all that is elevating in influence, all that is hopeful in institutions.

The Maine Law and its vigorous execution must be sustained by the people of Maine, until politicians of all shades and of all sizes, big and little and of all conceivable stripes shall not dare to touch them with a finger, nor oppose by word or act.

Singing this evening.

The ancient and honorable antiquarians of the olden time, the Billings and Holden Society are to have a grand sing on this evening at the house of T. H. Morse on Central st., commencing at seven o'clock. It is a free sing and all are invited to be present.

Thousands of shad and millions of herring from the Potomac river, are daily transported over the railroad to Baltimore.

☞ The Paris correspondent of the New York Tribune says that Mr. Goodrich, our late popular Consul, who continues to reside with his family in Paris, has been engaged for the last year in preparing for publication in the French language, his series of school books, so well known in the United States and England. The stereotyping of four of the most popular of his educational series is just finished and the books will appear in a short time. After holding many anxious consultations in the subject of the title, he has at last determined to preserve the English title, "Peter Parley," *Les Contes de Peter Parley, La Géographie de Peter Parley*, &c; from the scarcity of works of this kind in France, and the want of system that prevails in this class of books, it is expected that a large sale will be realized.

☞ The conversational meeting of Cultivators notified to be held at the common Council Room on Saturday last, was, on account of the storm and some misunderstanding, as to an engagement of the room prevented from organizing and another meeting will be held at the same place on Thursday evening at half past seven o'clock. The interest felt by cultivators of gardens, fruits, flowers &c. in the success of these conversational meetings, give assurance that they will be well attended and may be made highly advantageous. We hope to see a full meeting on Thursday evening.

☞ The funeral of Francis Roberts, Esq., will take place from his residence on Ohio st., this afternoon at two o'clock. Relatives and friends are invited to attend.

Extract from a letter by the Rev. Mr. Churchill, of Boston, who is now traveling for his health in the East.

"It gives you an ever present idea of the expansive enterprise of his countrymen, to find their commodities of commerce continually in his path, wherever he goes. I have not yet visited any considerable city of Turkey where I did not find the medicines of my countrymen represented by Ayer's Cherry Pectoral. In Smyrna, Aleppo, Jaffa, Jerusalem and Constantinople, we see in each, on the door post of some bazaar, the portly American sign looking forward to Dr. Ayer, saying in a language not one in a thousand of the passers can read, "*Ayer's Cherry Pectoral for Coughs, Colds, and Consumption, Sold Here.*" On a shelf behind the cross-legged Mussulman are seen the bottles with their English, Spanish, French and German fare, turned to the crowd, as if to enquire who are there. We are told that foreigners are not the only purchasers, but the true believers themselves waive their trust in fate, to try this product of American skill when they find there is no other cure for them.

I was told here yesterday that the Cherry Pectoral had been presented to the Sultan, and is now in constant use in his harem, and in the hospitals of the Empire."

The Revenue Cutter Morris.

BALTIMORE, April 1.

The revenue Cutter Morris arrived at Norfolk from a winter cruise, having sailed over three thousand miles, spoken 350 vessels, relieved ten in distress, and saved four lives.

Earthquake in Cuba.

NEW YORK, April 2.

A severe shock of an earthquake was felt at Salados on Sunday the 19th.—Telegraph to Mercury.

☞ A letter from Mosul, in the New York Tribune, states that a new palace has been discovered in the ruins of Nineveh—a palace whose extent excels any yet found in Assyria. The letter describes the new discovery:

"Huge monsters—compounds of the lion, man and eagle—guard the entrances. The slabs are in fine preservation, representing the king and his officers at a lion hunt, a war scene and a victory, a state procession led by eunuchs, the king's chariot being drawn by men, with priests and griffins, in fine, a picture of Assyrian manners and religion as they were three thousand years ago. The workmanship is most exquisite. The slabs are to adorn the walls of the British Museum."

Mr Everett (says the Hampshire Gazette) has been condemned far and wide for his course on the Nebraska bill. Yet he has opposed this bill in all reasonable ways. He spoke against it, voted against the main and most objectionable feature of it and threw his whole influence in opposition to the measure. What more could he do? Ill health compelled him to be absent from the Senate chamber when the final vote was taken. Is he to be blamed for that? Have the people of Massachusetts become so exacting that they require a man to control nature and subject his physical being to the dictation of his will? Such seems to be the requisition of too many of the professed friends of Mr E.

☞ The Cincinnati Gazette of March 25th says:—

"Nebraska emigration is already pushing up the Missouri river; parties from Ohio are passing through our cities, seeking homes in the contemplated territory. Associations are proposed among the Germans to emigrate there in great numbers."

The Southside Democrat, a rabid disunion print published at Petersburgh, Va. calls upon Southern representatives "*to make the Nebraska bill one alternative and if needs be secession as the other.*" Whereupon, the Cleveland Leader coolly remarks—"Whenever the South desires to withdraw from the Union, let it pack up and go."

Men with unassuming wives ever fail. It is the husbands of such women as Mrs Dash and Lady Brilliant who find themselves face to face with the sheriff, and certain mysterious documents, adorned with red tape and wafers, big enough for target practice.

Archbishop Hughes was at Savannah on the 24th of March, and the Georgian of that date denied the report that he would endeavor "to direct the Catholic interest of the United States toward the acquisition of Cuba."

Spiritualism seems to be flourishing in New Orleans. A Mrs Dr Britt is delivering a course of lectures on the subject, and the press speaks highly of her ability.

It is said that Mr Marcy has declared if there is any attempt to back out from the demands made upon Spain on the part of the President, he will at once resign.

William M. Burwell, formerly editor of the Baltimore American, and a distinguished writer, has been engaged to take the editorial charge of the Baltimore Patriot after the 10th of the present month.

A gentleman who was conversing with Senator Douglas, told him that his attack on the New England clergy was very much like kicking over a bee-hive, all alive with bees, just for the fun of the thing.

☞ The name of the proposed new county of "[illegible]," has been changed to that of "Sagadahock," and the bill establishing it passed both branches of the Legislature.

Creditors never know a man so long as he is getting up in the world.

New Decisions in the Supreme Judicial Court of Maine.

Reported for the Age, in advance of the regular Publication.

County of Penobscot.

LAMBERT v. ROBERTS. Upon a note for money payable at a future pay day, whether in an entire sum or by installments, "*with interest to be paid annually,*" the interest which may have accrued in any year may be recovered if sued for before the pay day of the principal.

Upon a suit brought upon a note payable by installments, with interest annually, and declaring for the principal and interest, no interest upon interest is recoverable, unless the suit be commenced before the pay day of the last installment.

J. & M. L. Appleton, for plaintiff, *Peters*, for defendant.

SHEPLEY, C. J.—The question presented in this case has reference only to the interest recoverable. The suit was commenced after the first and second installments had been paid with interest, and before the third installment had become payable.

When a note is made payable with interest annually, whether by installments or not, the interest accruing before the whole of the principal becomes payable may be collected, if a suit be commenced to recover it before the whole of the principal becomes payable.

If no suit be commenced for that purpose until after that time, interest upon the interest, not paid from the time when it should have been paid, cannot be recovered in a suit for the principal and interest due upon the note. *Hastings v. Wiswell*, 8 Mass. 455; *Doe v. Warren*, 7 Greenleaf 48; *Wilcox v. Howland*, 23 Pick. 167.

When the first and second installments were paid with interest on them, the defendant did not pay the interest on the installments on installment not then payable, and he insists, that upon a correct construction of the language used in the note, he was not required to do it, and that the words "with interest to be paid annually," have reference only to each particular installment requiring it to be paid with interest annually.

This construction supposes the intention of the parties as exhibited by the note to have been that each installment should be paid annually with the interest accrued upon it. It would leave the words "to be paid annually," wholly inoperative, for the language before used provided, that the amount should be paid "in three equal annual payments with interest." The words "to be paid annually," must therefore be considered applicable to the interest on the whole sum requiring it to be paid annually.

It is also insisted that the reception of the interest on the two first installments operated as a waiver of any claim to have the interest paid on the installment not then payable. The case, however, states, that the annual interest was demanded and refused each year as it became payable. The indorsements only state that the installments as they became payable, were paid with interest on them to that time.

Defendant defaulted.

WELLS, HOWARD and RICE, J. J., concurred.

HOPKINS v. MEGUIRE. Upon the question whether a signature be genuine, evidence as to its resembling the writing of the party may be given by a witness who has seen him write, and such witness may state his belief as to the genuineness.

Upon evidence thus given of a resemblance and of a belief in the genuineness, it is competent for the jury to find a verdict that the signature was genuine.

For goods belonging to the defendant, but tortiously taken and detained by the plaintiff, an account filed by the defendant in set off to the plaintiff's demand cannot be sustained.

In a suit by the indorsee of a note against the maker, a note given by the indorser to the defendant cannot be allowed in set off, if not mentioned in the defendant's statement of his set-off demands.

Morison, for plaintiff, *Sewall*, for defendant.

American Sunday School Union.

On behalf of the American Sunday School Union, we ask from the friends of religion in our country a special consideration of its work and its wants. Its past labor and its mission in the future, claim for them a consideration. As a *national* and *catholic* institution, composed of Christians of the various evangelical denominations, it is unrestricted in its beneficence by the limits of State or sect. Gladly would it aid every community in our land that has children to be taught or youth to be reclaimed.

The two grand objects of the Society are—

1. To establish a Sunday school in every destitute neighborhood.
2. To supply these schools and the youth of our country with a Christian literature suited to their age and circumstances.

"If we would have the Bible believed and its precepts obeyed in this land, we must put forth more earnest efforts for the religious training of the young. That economy is most short sighted that would leave the young to grow up in sin to be reclaimed when hardened in it by age and habit. We therefore call upon all the friends of religion to aid us in sending forth godly men to gather into Sunday schools the multitudes of children and youth now wandering in paths of ignorance, irreligion and vice.

During the last business year, the contributions to the Missionary fund of the Society amounted to $60,434, an advance of $12,000 upon those of the preceding year.

We were thus enabled to employ 357 missionaries for periods varying from two to twelve months. Through their efforts, *one thousand seven hundred and four new schools were established*; and 2396 schools visited, revived and supplied with books. More than sixty thousand children were thus gathered into Sunday-schools mostly from the fields, the streets and the hunting grounds. Some ten or twelve thousand persons were induced to add themselves to the number of the instructors of the young, and more than 400,000 instructive books were put into active circulation by sale and grant—by these missionaries alone.

These numbers, however, serve but as an index to the good accomplished. The knowledge then imparted, and the habit of reading thus formed, create a demand for the Bible, and for books of a high moral tone. The influence of infidel and licentious presses neutralized. Sabbath desecration is arrested. The word of God is honored. Children and teachers are converted. The fact of assembling on the Sabbath, leads to a desire for the services of the ministry, and thus the Sunday-school becomes the forerunner of the church. This we state not as theory, but as fact.

There are at the present day, not *thousands* merely, but *millions* of neglected children in the United States. It is for *these*—the *untaught youth of the country*,—beyond the folds of the churches, that we make our appeal. We earnestly call upon every Christian man and woman to aid us in our effort to plant the Sunday-school with its long train of blessings in the waste places of our land."

☞ *Donations will be thankfully received by* LENNOX CORR, *Treasurer, No. 316 Chestnut Street, Philadelphia.*

REVOLUTIONARY ANECDOTE.—A correspondent of the Manchester (N. H.) Mirror, furnishes the following: "When the British were in Boston, in 1767, my father was in a barber's shop waiting to be shaved. A British officer came in and wanted to be shaved, provided the barber could do it without drawing blood, and saying if he did not he would run his sword through him. The barber was frightened and dare not undertake the task. A little boy sitting there said he would do it. He looked at the boy with astonishment, but the boy stripped off his coat and told him to take a seat. He took off the officer's beard without drawing blood and was paid a guinea for his trouble. The officer then asked him how he ventured to do it, as he had been to every barber's shop in town and no one before dared to do it. The boy replied: 'I thought I should see blood as soon as you would, and, if I had, I would have cut your throat to the neck bone in one moment.' The British officer hung down his head and left, amid shouts of applause for the boy."

Maine Legislature.

FRIDAY, March 31.

SENATE.

Mr Blake of Aroostook, called up resolve making appropriation for roads in the county of Aroostook, and the same passed to be engrossed.

Bill to allow married women their earnings was taken up, and passed to be engrossed, by a vote of 14 to 11.

Mr Berry, from the committee on the militia, reported a bill for organizing, disciplining, and governing the militia. Laid on the table and ordered to be printed.

Mr Drake, from the committee on interior waters, made a report, accompanied by a bill relative to tolls on Penobscot Boom. But the act was not taken up from the table before the adjournment.

HOUSE.

FRIDAY, March 31.

On motion of Mr Harlow of Canton, Thursday next was assigned for the consideration of report of the committee on railroads, &c., on petition for incorporation of the Portland and Oxford Central Railroad Company.

Mr Morrill of Augusta, moved to reconsider the vote passing to be engrossed the bill authorizing the city of Calais to aid in the construction of Lewey's Island Railroad. The motion was laid on the table till to-morrow.

Passed to be engrossed—Bills to increase the capital stock of the Northern Bank; to incorporate the American Bank; to incorporate the Maine Iron Manufacturing Company; to authorize Leander Morton to construct and maintain a wharf in the town of Bristol; in relation to intelligence offices; to incorporate the trustees of the Oak Grove school; to enable the city of Calais to aid in the construction of Lewey's Island Railroad; to incorporate the Aroostook River Railroad Company. Resolves in favor of James Lawrence; in favor of Orient Plantation; for pay roll of accounts No. 34.

Adjourned.

NEWSPAPER INDEPENDENCE. This is the theme of many newspaper scribblers, who fancy they understand all about it, but who utterly ignorant of the faintest knowledge of the terms. If a paper does not agree with them precisely in every particular, upon any subject which comes before the public, then that paper lacks what they call "independence."

The editor of a newspaper has his own ideas of the manner in which he should conduct his journal, and that man does not live who has succeeded in pleasing all his readers. True independence does not consist in pandering to every whim of popular feeling, or in the exercise of a sagacity which snuffs every change in public sentiment, and trims its sails accordingly. An honest man, a conscientious editor, cannot do this, and it is only by a consistent advocacy of his own opinions on all subjects of public interest that either he or his journal may expect to have influence. A decent respect to public sentiment must of course control to some extent the expression of general views on questions of public policy, but the editor is not fit for the position he occupies who does not, when convinced of its necessity, utter boldly and fearlessly his commendations of whatever is right, and his censures, and even denunciations of iniquities of every kind, within the legitimate sphere of his notice which he conceives detrimental to the interests of States or the well being of communities.

We should like to see some of these scribbling tattlers take charge of a daily paper for a month, that we might witness the demonstration of their ideas of independent journalism. We think it would be edifying to the public, whatever might be its general effect upon society.

Because a paper does not choose to hurl its denunciations against every hurrah of a parcel of men or boys, or does not see fit to lecture every impropriety which occurs within its notice, some extremely young disciple of the quill pounces down upon it with terrible severity, and pronounces it unworthy the support of independent subscribers. We have seen many such specimens of friendship towards independent journals, but we have invariably found that as soon as the anathematized journal chimed with their opinions, no matter what others thought of the course, it was the very soul of independence. As for the very youthful censors of journalism, who turns their fledging efforts on journals which their fathers read before they were born, we can well afford to be amused at their aspirations after literary distinction. It will be that way at first—it was so when we were young.—Carolinian.

The man who, with good health and a good soil to work upon, cannot make his farm a means of real and positive income, without lessening the value of the farm, is no farmer. Still, he may overcome all these deficiencies, and if so, he can become a farmer. If he investigates principles by his practice he will prove those principles, and be able thereby to improve his farming.

A farm which should be held at any valuation equal to a single red cent must be a farm which can be made to produce, from year to year a sufficient sum to pay for the labor of cultivating it—the cost of the team work upon it, the wear of implements, the value of manures applied to it, the taxes, the interest of its cost or valuation, and something beside. A farm that cannot be made to do so much is worth *nothing* only to help hold the world together.

Life's Lesson Should Be.

BY H. HALLECK.

Forget not—regret not the joys that have fled,
Though sweeter and fleeter than fresh odors shed,
From the [illegible] cup, or the bright chalice hid
From the gaze of the sun, 'neath the violet's lid.

Forget not—regret not, hope ever should burn
The incense of love in her funeral urn
Shedding glory and light o'er the gems of the past
By time on the altar of memory cast.

Forget not—regret not; why should we regret,
While one star remains that another has set?
And though all may have faded, others brighter by far,
Through the gloom may arise than one' once worshipp'd star.

Forget not—regret not, life's lesson should be
Like the stars that are hung o'er the limitless sea,
A guide to our path, bright links of the chain,
To lead us and bind us to virtue again.

"Forget me not."

"Forget me not," in weal or woe,
Whether friends of youth are false or true,
"*Forget me not*," in sorrow's hour,
Or when the shades of Life shall lower
"*Forget me not*," in pleasures bright
When festive glee thy heart shall light,
When mirth and joy gladden thy lot
Oh, then, my friend,—"forget me not."

"Forget me not," where'er thou art
Cast not thy memory from thy *heart*
"Forget me not," but sometimes learn
Toward me your wandering thoughts to turn
"Forget me not,"—and when you see
This humble rhyme, oh "think of me,"
"Where'er thy home, what e'er thy lot,
My prayer shall be, "Forget me not."

"GERTRUDE."

March 11th 1854

Holloway's Pills are the best medicine now on sale in the United States—the ingredients of which they are composed are so uninjurious, that they cannot harm the most delicate constitution. To [illegible] those they cannot fail to be of the utmost service, being composed entirely of medical herbs, the production of a person who has made it his study to alleviate the ills to which all human family are subject they must, therefore be hailed with delight as supplying a want long felt in the community.

☞ See advertisement. d&w

CARD.

HEMENWAY & HERSEY take this opportunity to tender their thanks to their numerous friends and the public for, and solicit a continuance of, the very liberal patronage they have hitherto received. They would now invite attention to their new and elegant Sales Rooms, at No. 3 Exchange Block, at the corner of Exchange street and Kenduskeag Bridge. Those Stores have been fitted up in the most approved modern style for the accommodation of our friends upon the *East Side* and together they form one of the most convenient and attractive establishments of the kind in the State. Here we shall keep constantly on hand a very large, rich and well assorted stock of every variety of goods in our line of trade.

We may also be found at the *Old Stand* No's 18 and 20 Main street, where we shall continue to keep the same rich and extensive assortment of Goods as heretofore.

HEMENWAY & HERSEY.

Bangor, March 9, 1854.

☞ **To the Ladies.**—Hurd's Golden Gloss for the Hair, is a preparation which has no equal. It is highly perfumed, and imparts the fragrance of the most delightful flowers. It makes the hair

SOFT GLOSSY AND BEAUTIFUL,

and causes it to grow luxuriantly, preventing it from falling off or turning grey. It removes dandriff, prevents eruptions forming, and keeps the scalp clean, smooth and healthy. It has cured nervous and sick headache by a single application. Ladies who learn its value in this respect will never be without it. Price 25 cts. W. C. HURD, Proprietor, 304 Broadway, New York. B. F. PERKINS, Agent, Bangor. jan9

SHIPBUILDERS' CONVENTION.

The Shipbuilders of Maine will hold a Convention at Bath commencing on WEDNESDAY, the 5th of April, at 9½ o'clock A. M. to continue in session two days. Every builder in the State is invited and requested to be present.

Dr. Morse's Invigorating Cordial,

The only sure and safe Remedy, yet discovered, for General Debility, Physical Prostration, Irritability and all the various train of Nervous Affections, it will also remove Depression, Excitement, Dislike of Society, Incapacity for Study or Business, Loss of Memory, Mental Debility, &c., &c.—See Advertisement.

A WONDERFUL DISCOVERY has recently been made by Dr Curtis, of this city in the treatment of Consumption, Asthma and all diseases of the lungs. We refer to "Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr C. has restored many afflicted ones to perfect health, as an evidence of which, he has innumerable certificates. Speaking of the treatment, a physician remarks—It is evident that inhaling—constantly breathing an agreeable vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the druggists throughout the country.—[From the New York Dutchman, of January 14th.

See advertisement of Medicated Inhalation in another column of this paper.

"The Glory of Man and the Gracefull Ornament of Woman."

☞ What is there more glorious or more beautiful than to see a rich, luxuriant head of hair on either man or woman? And when those rich tresses of woman begin to decay by disease, how important that we have some preventive or cure! There are a thousand different preparations brought into use purporting to prevent hair from falling off, or causing a new growth when the head has become bald, but all of little or no use, and very often injuring the diseased roots more than doing them good. But there is a article which has recently been discovered in New York, which WILL prevent Hair from falling out, and is guaranteed to produce a good growth of Hair on heads that have become bald. We have one case in a son of an elderly lady who has [illegible] who is willing to certify to the truth of the above. And [illegible] to try it, the Wholesale Agent of Bangor offer, for a reasonable sum, to guarantee a good head of Hair to any one who will try it through in three months, or no charge for the article. Now come one come all, it costs you nothing to try it. This preparation is called HURD'S HAIR RESTORER. Read the following certificate from a gentleman well known in this city, as well as New York.

New York Dec 9 1853

Mr Hurd—Dear Sir—I have been bald for the past five years and as my father's and grandfather's family were bald at an early age it was considered hereditary and thought impossible to produce new hair on my head—Indeed every thing failed, until I was induced to try your Hair Restorer. I commenced using it about six weeks ago and where my head was then bald it is now covered with a vigorous growth of new hair, and there is no doubt it will produce hair on any bald head.

Yours truly, C. FARAND,

Daguerreotypist, 307 Broadway.

BRIGG'S Green Mountain Vegetable CEMENT,

FOR joining Broken China, Glass, Earthern Ware, Metals, Wood, Cabinet Work, and Fancy Articles of every description. This Cement which has been proved to be of great strength will be found particularly useful in every family. The simple manner of its application is alone a recommendation. The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it. The variety of purposes for which it may be used are so numerous that it would be difficult to recite them. Its success in mending Glass, China, &c., is extraordinary, no ordinary degree of heat affecting it, and as the joints are scarce ly perceptible articles of this kind may be made useful for years which otherwise would have been cast away. The above article may be had, wholesale or retail, of GEO. W. EMERSON, No. 4 Smith's Block, General Agent for the State of Maine. mch21 d&w

Assessors' Notice.

THE inhabitants of the City of Bangor, and others having taxable property within said City, are hereby notified and requested to bring in to the undersigned, Assessors of said City, true and perfect lists of all their polls and estates real and personal, including money of all kinds on hand or at interest, and debts due more than owing, and all property held in trust as Guardian, Executor, Administrator, or otherwise, (except such as is exempted by law from taxation,) which they may be possessed of on the first day of April next, and to be prepared to substantiate the same by oath.

And for the purpose of receiving said lists, the undersigned will be in session at their office, during the business hours of each day, from the first to the 15th day of April next, Sundays excepted. And any personal examination of property by the Assessors will not be considered as a waiver for neglect of any person in bringing in true and perfect lists as required by law.

Those persons who neglect to comply with this notice, will be barred by law from appealing from the decision of the Assessors, on their applications for abatements.

R. S. PRESCOTT, }
J. S. CHADWICK, } Assessors of
SAM'L THATCHER, Jr., } Bangor,
Bangor, March 27, 1854 [illegible]
(Mercury, Dem. and Jeff copy)

Important Bargains Offered.

LOTS of Land for Rural Dwelling Houses, with large Fruit and Vegetable Gardens, adjoining the city, mostly on the continuation of French St and Broadway, and a street laid out 75 feet wide in the range with Broadway (as it runs from State Street to the Park. This street is laid out about 160 rods through my lands extending over the west end of Mt Pleasant. This land is north of and much higher than the Park, having a commanding view of the city and surrounding country.

Also land for Orcharding and Farming on the new 8 age Road to Oldtown running by Coombs' Mills situate beyond and near the first considerable elevation, having a view of some part of the city on its western side. This land is considered as good as the farm on which I live where I have raised over 40 bushels of wheat to the acre (as may be seen on the books of the P. A. Society,) and oats, hay and potatoes in that proportion. Some judgment may be formed also of my land for Fruit Trees in my lot near the city, by examining my bearing trees and our Fruit Nursery.

My land East of the Mills has a considerable growth of wood on it, and some timber for frames. We can go three turns a day, it being one of the best roads running out of Bangor.

Liberal terms will be given on it, and the size of the lots made to suit purchasers.
N. HARLOW
Bangor, March 25, 1854

If any person, not advanced in life, should appreciate the probable results of a few years good business in Bangor of purchasing land from an original lot beginning at East Market Square (the northerly part of Lot No 68, Holland's Plan is referred to,) where three leading and important streets are laid out passing into our great and important northern and western country, he can now do so. These streets will afford some of our finest sites for elegant Houses and valuable Fruit Establishments, without exception. It is only a strong wish to be relieved from part of my cares, and that of doing business of this kind which could induce me to sell at this time, the quantity.
N. H.

ELEGANT Cashmere Shawls.

WE HAVE JUST RECEIVED A LARGE lot of very beautiful

Mechanic's Fair in Portland, Me.,

SEPTEMBER, 1854

THE MAINE CHARITABLE MECHANIC ASSOCIATION will hold a FAIR and EXHIBITION for Premiums, in Portland, commencing on the

10th day of September next,

and invite contributions from every industrial profession. Choice specimens of industry and skill—unique and valuable domestic productions, natural and artificial—the delicate and beautiful handiwork of females—labor saving machines, implements of husbandry, new models of machinery, and, indeed, articles from every department of manufacture, which it would be impracticable to particularize in this advertisement.

MEDALS and DIPLOMAS will be awarded to owners or manufacturers of articles deemed worthy of that distinction.

STEAM POWER will be provided, to show any model or machinery in operation to the best advantage.

Further information is communicated in the Circular issued by the Association, which may be obtained at this office or by addressing

CLOTHE YOURSELVES!

Friends and patrons, just ask your aid,
In giving work to one who does it well,
Come! one and all and do not be afraid,
For depend upon it no one shall excel.
In work, or cheapness, I will give satisfaction
To any one who is capable of judging,
I will ask all a job is worth, every fraction
He who will not give me that may be a budging.
But come and see me all at Number Ten
At East Market Square, in the Granite Block,
Up two flights of stairs, and then,
Walk in—you needn't stop to knock.
Here you'll find me at my occupation
Either cutting, making, or repairing
Clothes for myself, or others in our nation,
Where there is at present so much rant and tearing.
Repairing Clothes, at present is my hobby,
And I stay my work with good silk and linen
Come! you that had your coat torn from your body,
I'll make it look as well as at beginning.
Or at least I'll try, although I'm getting old
Yet there is One who notices the sparrow,
That Power has led me on—but, hold!
My name is, what ever 'twas,

KENNEDY'S

MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR* from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two Bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running of the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. [illegible] He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effect of it in every case. [illegible] the greatest cures ever done in Massachusetts. [illegible]

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON*.

No. 76 State Street, opposite Kilby St, BOSTON.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, TWENTY DOLLARS (instead of twenty as well as by others) will be remitted by him in case of failure to obtain a patent and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq. of Boston did business at the Patent Office as Solicitor of Patents. There were few if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

PATENT OFFICE ——.

R. H. EDDY Esq., Boston Mass. *Sir*—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully, yours &c.,

THOMAS EWBANK,
Commissioner of Patents.

Boston, Sept, 1853. 3tawd&weowly

TESTIMONIALS.

The following certificate from Dr John C. Warren, of Boston, was given 17 years since, but will [illegible] force:

Boston Jan 5 1837

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of skilful workmen in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J. F. Foster to supply the deficiency occasioned by the death of Mr Beath. After [illegible] his work I am well satisfied that Mr Foster is well acquainted with the mechanism of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN M. D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr James Frederick Foster as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us over twenty years) and [illegible] from personal knowledge of his ability. His [illegible] advantages [illegible] long experience in the business and the large number of individuals whom he has [illegible] render him [illegible] His father Deacon Gideon Foster of Charlestown was master of the [illegible] upwards of twenty-five years during which [illegible] made application [illegible] Trusses [illegible] cases with great success, some of which were of a very complicated and difficult character.

It is well known to all who have occasion to wear a Truss that the greatest difficulty consists in the adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skilful practical [illegible] can apply one in such a manner as to effectually [illegible] and oftentimes radically cure the complaint.

Our experience has convinced us that Mr Foster has thoroughly obtained this knowledge. The certificates of Dr J. C. Warren and other eminent surgeons which he has shown to us fully sustain the opinion we have expressed.

Olives---Olives.

15 JARS fresh Olives to be sold very low by G. F. SARGENT.

WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

THIS valuable medicine which has received the sanction of the medical faculty by whom it is generally prescribed and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITIS, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known to medical men as being peculiarly healing. In cases where ulceration has taken place on the lungs, this article has been found, by the most careful tests, to supply the very ingredients necessary for the formation of cells and the complete healing of the delicate part of the human system.

This preparation of the pure Cod Liver Oil and Lime is free of the [illegible] nauseating taste which render it so repulsive particularly to invalids.— The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect [illegible] of chemistry, and a medicine has thereby been produced which is of inestimable value in a climate like our own.

A long array of certificates might be given here to prove the efficacious character of this medicine, but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty is sufficient proof of its unquestioned excellence.

For sale wholesale and retail by ALEX'R B WILBOR, Chemist, 56 Court st., Boston.

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr CURTIS for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints by Medicated Inhalation. Dr. CURTIS'S HYGEANA or INHALING HYGEAN VAPOR and CHERRY SYRUP has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past ever known to man. It is producing a sensation on diseases of the Lungs never before witnessed by the medical profession. See certificates in hands of Agent.

The Inhaler is worn on the breast, under the linen without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing agreeable vapor passing into all the air-cells and passages of the lungs, that cannot possibly be reached by any other medicine. Here is a case:

ASTHMA CURED.

Brooklyn N. Y., Dec 10 18[illegible]

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my power of description; months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing and my sufferings were so great at times that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit and but little relief. I at length had the good fortune to procure Dr Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach and took a teaspoonful of the Cherry Syrup I was relieved in a great measure from the difficulty of breathing and had a comfortable night. I have since continued it with the greatest possible benefit and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is TRY IT. MARGARET EASTON.

CONSUMPTION CURED.

New York Dec 27th 1853.

I came to New York in the ship Telegraph; my native place is St John New Brunswick; when I reached this city my health was very poor; had a bad cough, raised a good deal of matter which was frequently mixed with blood; I had pain in my left side and I was very weak and emaciated. My friends and physicians pronounced my case consumption and beyond the reach of medicine. I accidentally heard of Dr Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package which I verily believe was the means of saving my life. Soon after wearing the Inhaler I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed and continued to do so, my cough gradually grew better until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the refreshing [illegible] upon the lungs, I feel unwilling at present to dispense with it. [illegible]

Sold in Bangor only by SAM'L E. PERKINS, No 1 Kenduskeag Bridge. feb9 3tawd&wtim

CHERRY PECTORAL

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment and even prolong the term of human existence, none can be named of more real value to mankind than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country has proven beyond a doubt that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following—and refer further enquiry to my American Almanac which the agents below named will always be pleased to furnish free, wherein are full particulars and indisputable proof of these statements.

Office of Transportation, Laurens R R. S C. Aug 4, 1853.

J C Ayer, Dear Sir—My little son four years old, has just recovered from a severe attack of Malignant Scarlet Fever; his throat was rotten and every person that visited him pronounced him a dead child. Having used your Cherry Pectoral in California in the winter of 1850 for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours commencing in the morning and by ten o'clock at night I found a decided change for the better; and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all those afflicted with any disease of the Throat or Lungs, I believe it the best medicine extant. [illegible] my little boy would now have been in another world.

I am yours with great respect, J. D. POWELL, Supt. Transp'n L. R. R.

Rock Hill (Somerset Co.) N J. July 21 1852.

Dr J C Ayer—Since your medicine has become known here, it has a greater demand than any other remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it and I know of some cases where the best they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply and oblige me.

Yours with respect, JOHN C. WHITLOCK.

P. S. Also send any number of certificates can be sent you if you wish it.

DR. MORSE'S Invigorating Cordial,

A

Phenomenon in Medicine.

Health Restored & Life Lightened by Dr. Morse's Invigorating Elixir, or Cordial.

For centuries Medical science has been ransacking the vegetable and mineral kingdoms in search of something that should restore the vital energy of the nervous and muscular systems, without the drawback of subsequent prostration which all stimulants [illegible] had hitherto failed to do. *It is something has been found.* It is a vegetable production brought from the stony deserts of Arabia by the celebrated Professor M. Morse, well known as a distinguished member of the leading scientific societies of the Old world and equally distinguished as a physician, a chemist and a traveller. The juices of this herb concentrated and combined with other vegetable medicinal extracts are now producing results heretofore unheard of in this or any other country. At first the properties attributed to Prof MORSE'S INVIGORATING ELIXIR OR CORDIAL were deemed fabulous. The public [illegible] *could not believe* the simple and [illegible] truths announced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest [illegible] and character [illegible] testimony which is perfectly irresistible.

The ELIXIR remedies all cases the deplorable [illegible]

REBUILD THE BROKEN CONSTITUTION.

The derangements of the system [illegible] are so numerous [illegible] which this preparation is a specific. [illegible]

[illegible] medicine.

[illegible]

MORSE'S INVIGORATING ELIXIR.

[illegible]

CURE OF NERVOUS DISEASES.

[illegible]

LOSS OF MEMORY.

[illegible]

A GREAT MEDICINE FOR FEMALES.

[illegible] the result is [illegible] happy patient.

EVERY WOMAN OF SENSE

who [illegible] to her [illegible] either ... to both sexes—I give the Invigorating Cordial a trial.

MARRIED PERSONS,

or others, will find this Cordial, after they have used a bottle or two, a thorough regenerator of the system. [illegible] Thousands of the most [illegible] have been restored by using it and not a single instance has it failed to benefit them.

PERSONS OF PALE COMPLEXION,

or consumptive habits are restored by the use of a bottle or two to bloom and vigor, changing the skin from a pale, yellow, sickly color, to a beautiful florid complexion.

TO THE MISGUIDED.

These are some of the sad and melancholy effects produced by the early habits of youth, viz. weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions, [illegible] Mentally, the fearful effects on the mind are much to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self distrust, love of solitude, timidity, &c., are among the evils produced. All thus afflicted

BEFORE CONTEMPLATING MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness; indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with your own.

PARENTS AND GUARDIANS

are often misled with respect to the causes and sources of disease in their sons and wards. How often do they ascribe to other causes the wasting of the frame, idiocy, madness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms indicating consumption, when the truth is that they have been indulging in a pernicious, though alluring practice, destructive to both mind and body.

CAUTION.

Dr. Morse's Invigorating Cordial has been counterfeited by some unprincipled persons.

In future all the genuine Cordial will have the proprietor's fac simile pasted over the cork of each bottle, and the following words blown in the glass:—

"Dr Morse's Invigorating Cordial.

C. H. RING, Proprietor, N. Y.
